P66 loop in the claim (202-208)
CD47 face that touches SIRPalpha (21 residues)
rest of P66
rest of CD47

US-align superposition: TM-score 0.34 normalised by CD47,
aligned 68 residues, RMSD 4.34 A.
The loop's centre sits 55 A from the centre of the binding face.
