P66 loop in the claim (202-208)
CD47 residue that touches SIRPalpha (9 in this segment)
identical residue
hsdm17 (17 classes), seed 4, mismatch penalty 0.5: score 6.0 over 36 residues, p = 0.0004 against shuffled CD47
Bonferroni threshold for the 132-setting sweep is p < 0.00038, so this is a lead and not a result
