within 0.15 of the printed AUC (rule 1)
printed AUC
0.5, no difference
from reads, rule 1 passes
from reads, rule 1 fails
1,000 random gene sets: median, middle 95 %
the authors' gene table, thinned to as many reads
a
GSE120862 (panel C)
untrained vs trained
GSE99963 (panel D)
before vs after 10 days
GSE144304 (panel D)
young vs fit old adults
untrained (n = 42)
trained (n = 42)
Pre (n = 14)
Post (n = 14)
Young (n = 26)
Fit (n = 30)
Score from the gene table (PR 212)
printed AUC 0.08
printed AUC 0.91
printed AUC 0.86
b
Score from reads, no genome
all reads, AUC 0.72
all reads, AUC 0.89
all reads, AUC 0.87
c
AUC, second group above first
