500
600
Total FPKM of a sample in the authors' table
(thousands; genes with a read; tick, median)
b
authors' FPKM table, as on GEO
0.08
authors' FPKM table,
genes with a read only
0.10
authors' FPKM table,
every sample scaled to the same total
0.64
authors' DESeq-normalised counts, as on GEO
0.07
reads, no genome,
every sample scaled to the same total (CPM)
0.71
reads, no genome, scaled as DESeq does (median of ratios)
0.27
reads, no genome,
every sample given its total from the authors' FPKM table
