Swiss-Prot minus Ascidiacea: one point per protein
Target protein in a category
Control protein
MHC class I and II (n = 187)
MIC / ULBP (NKG2D ligands) (n = 3)
Antigen presentation (TAP, B2M, CD74, ERAP) (n = 104)
NK receptors (KIR, LILR, KLR) (n = 67)
T cell receptor and CD3 (n = 186)
C1-set domain proteins (n = 17)
Non-vertebrate self/non-self (n = 58)
Minor histocompatibility antigens (n = 204)
Control (length-matched random) (n = 826)
